The OmniBrite Series

The OmniBrite Series can be used for set design, advertising displays, education, point of sale kiosks and for advertising and billboard marketing opportunities.

Product Features

- Available in 3 sizes, 100cm, 140cm and 180cm
- Offers 180° or 360° viewing and is made from a specially coated acrylic which makes it ideal for indoor and outdoor use
- The unique dome shape of this 3D digital display means that customers are drawn to look at the system itself therefore enhancing your marketing message
- The domes are designed to be used in any lighting condition
- Images and footage are easily rendered to fit the dome.
